Description

Heavy-duty shipping container corner mount castings designed for connecting and securing shipping containers to other containers or structures. These weldable corner castings can be incorporated into fabricated structures and used with compatible **shipping container twist locks and bridge clamps**.

Available in **bottom-left and bottom-right configurations** to provide the correct orientation for container corner connections.

Features

- Available in **Bottom Left and Bottom Right** configurations

Shipping Container Corner Mount Bottom Left & Right

- **Fully weldable** for incorporation into custom structures
- Designed for shipping container corner connections
- Can be used with compatible **container twist locks**
- Can be used with compatible **shipping container bridge clamps**
- Left- and right-hand versions provide the correct orientation for different container corners
- Suitable for container modifications, fabrication and structural applications
