Description

The MEMOV30 battery-powered, remote-controlled load skate is designed for moving and positioning heavy machinery and equipment with minimal manual effort. This self-propelled system combines wireless remote operation, powered drive and precision steering to provide controlled movement of heavy loads in industrial environments.

The MEMOV30 is rated for a **30T pulling capacity**, with a **15T front and 15T rear load capacity**. Its compact design and 360-degree steering make it suitable for manoeuvring heavy equipment in confined areas and around bends.

Features

- **30T pulling capacity**
- **15T front / 15T rear load capacity**
- Battery-powered and **self-propelled**
- **Wireless remote control** allows the operator to control the unit from a safe distance
- **360° steering** for improved manoeuvrability
- Dual drive motors
- Variable speed control for precise positioning
- Travel speed up to **0.6km/h**
- Direct-drive motors
- **4–6 hours operating time under full load**, under ideal conditions
- 16 slave rollers and 4 traction rollers
- Designed for moving heavy machinery and equipment on suitable flat surfaces
- **Maximum gradeability**: 3% with rated load

Specifications

- **Model**: MEMOV30
- **Pulling Capacity**: 30T
- **Load Capacity**: 15T Front / 15T Rear
- **Number of Traction Rollers**: 4
- **Number of Slave Rollers**: 16
- **Load Skate Dimensions**: 1990 x 390 x 170mm
- **Load Skate Weight**: 147kg
- **Drive Unit Dimensions**: 671 x 670 x 181mm
- **Drive Unit Weight**: 217kg
- **Battery**: 48V / 60Ah
- **Travel Speed**: Up to 0.6km/h
- **Maximum Gradeability**: 3% with rated load

Note: Available in **20T, 30T, 35T, 40T, 50T and 80T** capacities. Optional hydraulic lift ram is available on selected models, excluding the 80T model.

Spare Parts Available: Spare parts are available for the **MEMOV30**
