Description

The MRFS250 Roof Skate is designed to safely and efficiently move roof sheets across purlins during roofing and construction work. Its easy-glide rollers provide smooth movement, while the removable handle makes the skate easier to transport and store.

Features

- **250kg capacity**
- **5 easy-glide rollers** for smooth movement over purlins
- Bolt-on handle can be removed for easier transport
- **Hi-Vis Yellow powder-coated finish** for improved visibility and protection

- Black handle grips for improved comfort and control
- Cost-effective solution for handling and positioning roof sheets
- Designed for roofing and construction applications
